Sophia, Georgetown.
Subject: Project Description (Summary)

Dear Sir / Madam,

This project has been in the planning stages for the past four years. The project will be of tremendous benefit to the people living near its location. There are no such businesses within a 20-mile radius. The location is, therefore, perfect for the project. With the project I can achieve many goals. My main goal is to create jobs for people within this area. The jobs I create will help many families cater for their needs. Secondly, the project will help to enhance the surroundings. It will give the village a brighter look and a more modern feel. I would also like to provide products and services that are currently unavailable in this area. I have observed that homes within the area are being modernized. With the modernization comes the demand for lumber, building and hardware supplies .

Bringing these requirements to the locality will eliminate the need for people to travel to the capital city to purchase materials. We can provide the same services and materials that people currently need to travel far to obtain, at a much lesser cost. To make this project attractive, I will provide excellent services and products at affordable prices. I will also offer free transportation of materials. Lastly, I wish to build on this project so that in the near future, I can create more employment opportunities and uplift the lives of people within this neighborhood.

Best Regards

Thomas Noble

Manager / Director
