The Environmental Protection Agency
Ganges Street,
Sophia,
Georgetown.
Dear Sir/Madam,

Description of Project

Palladium Motors Inc. is a member of the Beharry Group Companies and is located at 192 Wellington Street, Georgetown. Palladium Motors was established in 2016 and is a major distributor for some of the best automotive brands in the world. Some of the brands are Wanda Automotive Paint, Energized Battery Chemicals, Iron Man suspension parts and Gliptone car care products.

As such, Palladium has decided to construct the only environmentally friendly automotive spray shop in Guyana. Fitted with the world renowned Accudraft Spray Booth, this model has internal filters that can be removed, clean and reinstall. Palladium Motors believes in happy and healthy workers and a pollution free environment for the future generation.

The Purpose of such a facility is to enhance the level of automotive finishes in Guyana by delivering OEM specification paint jobs without having an adverse impact on the environment. Clients can be assured of a safe, secure and healthy environment. Because Palladium Motors Inc. would be using Lead Free Automotive Paint/Paint Preparation Materials.

The construction of the building started in 3rd February 2020 and will be completed by 3rd July 2020. As such, Palladium Motors is seeking Certification from the Environmental Protection Agency to commence the operation of this project. Site visits are welcome at your convenience.

Imran Khan
