

Environmental Protection Agency

Notice to the Public

Pursuant to Section 11(2) of the Environmental Protection Act, Cap. 20:05, Laws of Guyana, the Environmental Protection Agency (EPA) has screened the applications for the grant of an environmental permit for the following proposed projects:

Construction and Operation of Lusignan Hotel Inc located at Plot B Market Road Lusignan, East Coast Demerara.

The EPA has determined that this project will not significantly affect the environment, and is therefore exempt from the requirement to conduct an Environmental Impact Assessment (EIA). The reasons for EPA's decision include:

1. Air quality will not be significantly affected since particulate matter emissions are primarily from transportation vehicles, and machinery during the construction phase. Impacts will be primarily short-term, localized, and mitigable due to the implementation of mitigation measures. Dust control measures such as dampening the work area, covering loose soil (small particles), and implementing water spraying systems to suppress dust emissions will be employed. The emissions are not expected to exceed WHO standards.
2. Noise and vibration will be expected primarily during the construction phase of the facility from vehicles, equipment and machinery usage. These are not expected to exceed 90 decibels and are short-term, localized and mitigable.
3. Hazardous waste generation will not be significant and will not pose any risk to human health and the environment. Authorized sanitation waste disposal services will manage and dispose of non-hazardous waste during the construction and operation of the facility in accordance with the Hazardous Waste Management Regulations 2000.
4. No process water/effluent will be generated. A septic tank will be constructed on site. Impact to water quality will be short term, mitigable and localized.

Please be advised that this decision is in no way an indication that this project is approved.

The reasons for our decision are available at the following links on our website

Project Summary Tab
