

# Environmental Protection Agency

## Notice to the Public

Pursuant to Section 11(2) of the Environmental Protection Act, Cap. 20:05, Laws of Guyana, the Environmental Protection Agency (EPA) has screened the application for the grant of an environmental permit for the following proposed project:

***MAKPAK Inc. – Manufacturing of Plastic Products at Plot 60 Area “KK” Land of Canaan, East Bank Demerara.***

The EPA has determined that this project will not significantly affect the environment, and is therefore exempt from the requirement to conduct an Environmental Impact Assessment (EIA). The reasons for its decision include:

- 1) Air quality will not be significantly impacted since emission from the operations, particularly TVOCs are below WHO standards/ undetected. The risk assessment submitted indicated that the ambient outdoor levels of TVOC was 0.05 mg/m<sup>3</sup>. Air quality assessments conducted by the EPA while the operation was active, revealed that TVOC was undetected within the facility.
- 2) The facility will not have any discharges therefore water quality and soil quality will not be impacted.
- 3) Noise levels are within the GNBS Residential Day-Time Limit of 75dB.
- 4) The project is not located within an environmentally sensitive area i.e., it is not located in an area having special environmental attributes that require special care or rare ecosystems or habitats with species at risk.
- 5) The application and project summary submitted outlined adequate mitigation measures for land, water, air & noise emissions from the project.

Please be advised that this decision is in no way an indication that this project is approved.
