

Environmental Protection Agency Notice to the Public

Pursuant to Section 11(2) of the Environmental Protection Act, Cap. 20:05, Laws of Guyana, the Environmental Protection Agency (EPA) has screened the application for the grant of an environmental permit for the following proposed project:

Passram Building and Electrical Supply – Concrete Block Manufacturing, to be situated at Lot 25, Section B, Number 59 Village, Corentyne, Berbice.

The EPA has determined that this project, for the following reasons, will not significantly affect the environment and is therefore exempt from the requirement to conduct an Environmental Impact Assessment (EIA):

1. Impacts on biodiversity will NOT be significant since the project site and surrounding lands consist primarily of vacant vegetated plots, of no known environmental sensitivity, special environmental attributes, rare ecosystems, habitats or endangered species.
2. The project site is located downwind in a sparsely populated area, not in proximity to similar activities that may contribute to cumulative impacts.
3. Impacts on air quality will NOT be significant since the following mitigation measures will be implemented:
 - a) Water sprinklers will be employed to control particulate matter from material aggregate storage stockpiles.
 - b) Trucks transporting loose materials will be covered to prevent dust from becoming airborne during transit.
 - c) The use of the block-making machines, heavy-duty machines/vehicles and a generator will be short-term, and during use, noise emission levels will be maintained within the GNBS limits.

Please be advised that this decision is in no way an indication that this project is approved.

Any person who may be affected by the proposed project may appeal against the Agency's decision (EIA not required) within thirty (30) days of the publication of this Notice.
Appeals against the EPA's decision should be addressed to:

The Chairman

The Environmental Assessment Board
