

Environmental Protection Agency

Notice to the Public

Pursuant to Section 11(2) of the Environmental Protection Act, Cap. 20:05, Laws of Guyana, the Environmental Protection Agency (EPA) has screened the applications for the grant of an environmental permits for the following proposed projects:

- ***Ms. Anthea Cavon Kumain La Fleur – Anthea Business Enterprise (Logging Concession) at BCE 24/09 Right Bank Ikuruwa River.***
- ***Mr. Shondell Anthony La Fleur – Shondell Business Enterprise (Logging Concession) at BCE 08/24 Right Bank Canje River, Right Bank Ikuruwa River, Left Bank Crossowa Creek.***

The EPA has determined that these projects will not significantly affect the environment, and is therefore exempt from the requirement to conduct an Environmental Impact Assessment (EIA). The reasons for its decision include:

1. The potential impacts of the projects on the physical, biological, and socioeconomic environment will be low, localized and will not have significant impacts on the ecosystem.
2. The existing logging operations are of a small scale and include only the harvesting of logs, and the cutting and transporting of lumber.
3. The potential for noise and vibrations from the falling of trees, loading, and offloading of lumber, and the use of heavy-duty vehicles at the operations are negligible considering the frequency and duration of such activities and the location of the concession.
4. The projects generate domestic solid waste and sawdust which are buried within the concessions. The project will also produce hazardous waste (waste oil) which is appropriately stored and re-used in keeping with the Agency's Hazardous Waste Guidelines.

Please be advised that this decision is in no way an indication that this project is approved.

The reasons for our decision are available at the following links on our website:
