PROJECT SUMMARY

1. INTRODUCTION

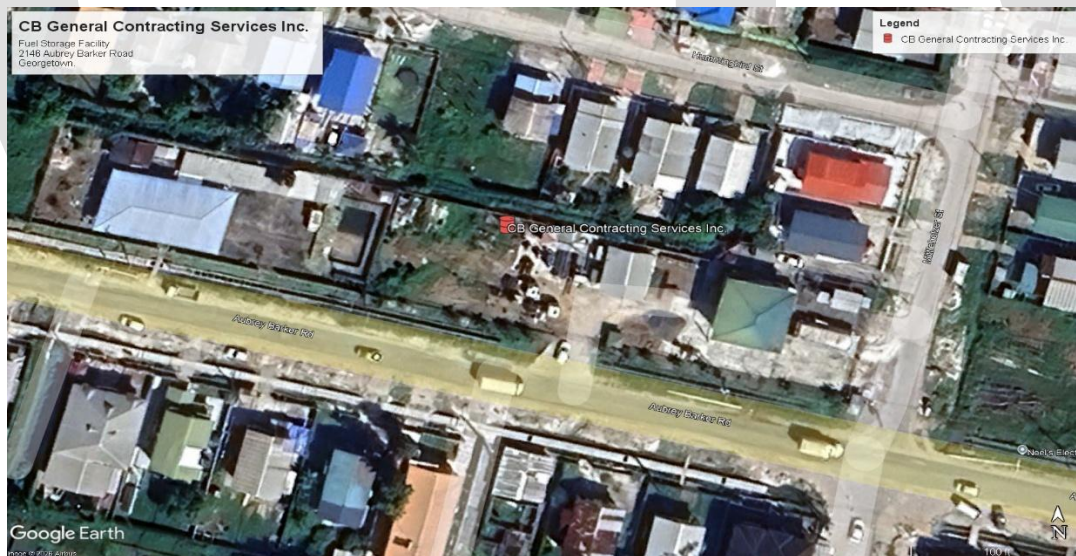

CB General Contracting Services Inc. proposes to operate a fuel storage facility at its PROJECT SUMMARY is submitted to the Environmental Protection Agency (EPA), Guyana in accordance with the Environmental Protection Act and regulations.

2. PROJECT PROPONENT

CB General Contracting Services Inc. main business activities includes general construction and rental of construction equipment.

3. LOCATION AND SITE DESCRIPTION

This facility is located within a developed commercial and residential area. This site is fenced, secured and can accommodate the operation of fuel tank. No environmentally sensitive areas are immediately adjacent. See map below.

4. DESCRIPTION OF THE PROJECT

The project involves the storage and controlled dispensing of diesel for internal operational use. Fuel is stored in a metal above-ground steel tank. Which has a total capacity of two thousand, two hundred and seventy-one (2,271) liters of diesel. The tank is equipped with one gravity flow nozzle dispenser.

5. OPERATIONAL ACTIVITIES

Activities include fuel storage, fuel delivery and dispensing to company's equipment and routine inspection and maintenance.

6. WASTE MANAGEMENT

Solid and liquid wastes are minimal and managed. Cevon's Waste Management collects the waste of this Company.

7. ENVIRONMENTAL IMPACTS AND MITIGATION

Potential impacts include spills and fire risks. Mitigation measures include secondary containment, spill kits, trained personnel and emergency response procedures.

8. HEALTH, SAFETY AND EMERGENCY RESPONSE

Fire extinguishers, spill kits, signage, PPE , and emergency procedures are in place to protect workers and the environment.

9. REGULATORY COMPLIANCE

The Company commits to compliance with the Environmental Protection Act of Guyana and EPA fuel storage guideline.

10. CONCLUSION

With proper management and mitigation measures, the project is not expected to result in significant environmental impacts.
