East Coast Demerara

Project Summary for Domestic Garbage Collection Business

Business Name: Giant Executive Cleaning and Construction Services (GECC)

Location: 152 Sparendam Housing Scheme ECD, Guyana

Project Overview: Sparendam Housing Scheme ECD

Giant Executive Cleaning and Construction Services aims to provide efficient and sustainable domestic garbage collection services to residential areas in Industry, Plaisance, and communities along the East Coast. To accomplish this we propose to establish a small-scale domestic garbage collection service to improve waste management practices and environmental sustainability in the communities along the East Coast of Demerara. Our service will focus on regular collection, sorting, and responsible disposal of household waste, including recyclables, organics, and non-recyclables. Our mission is to promote environmental health and community cleanliness by ensuring timely and responsible waste disposal.

Objectives: WE GET IT DONE

- To establish a reliable garbage collection service that operates on a weekly schedule.
- To minimize the environmental impact of waste through responsible collection and disposal methods.
- To establish a productive and sustainable business

Services Offered:

- Weekly curbside garbage collection.
- Procurement and delivery of garbage receptacles
- Safe and compliant disposal of non-recyclable waste at recognized landfill facilities (Hoggs Bosch Site).

Operational Plan:

- Utilize environmentally friendly vehicles for waste collection.
- Implement a user-friendly scheduling system for residents to request services.
- Partner with local recycling facilities to ensure proper waste processing.

Environmental Impact:

By promoting responsible waste management practices, Giant Executive Cleaning and Construction Services will help reduce litter, improve public health, and contribute to a cleaner environment in Guyana.

Call: 6102478

Compliance and Safety:

We will adhere to all local and national regulations set forth by the Environmental Protection Agency (EPA) in Guyana, ensuring that our operations are safe and environmentally responsible. Staff will be provided with appropriate safety gear and sensitized on safety protocols and waste handling procedures.

Conclusion:

Giant Executive Cleaning and Construction Services is committed to enhancing the quality of life in our community through effective waste management. We seek the support and approval of the local EPA authority to launch our services and contribute to a cleaner, healthier environment in Guyana.

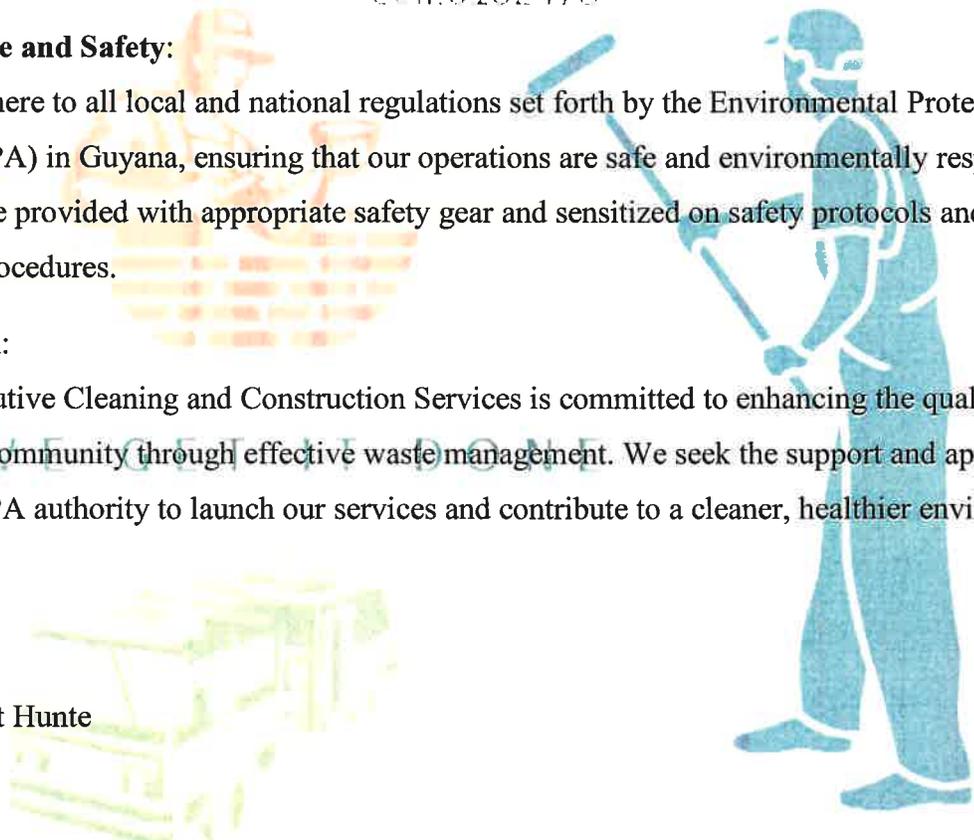

Sincerely,

Shaka Giant Hunte
