

Government of the Co-operative Republic of Guyana
Environmental Protection Agency

September 19, 2024

Ref#.: 20150904-GNICE

Mr. Ramgobin Ramkissoon
Special Projects Officer
Guyana National Industrial Company Inc.
1-9 Lombard Street
Charlestown
Georgetown

Dear Mr. Ramkissoon,

Re. Environmental Permit (Varied) for Installation of a Fuel Storage Tank

The Environmental Protection Agency (EPA) has prepared an Environmental Permit (Varied) for the Installation of a Fuel Storage Tank at 1-9 Lombard Street, Charlestown, Georgetown.

Please sign the Environmental Permit (Varied) to indicate your acceptance of the enclosed terms and conditions and agreement to comply with the statutory requirements of the Environmental Protection Act, Cap. 20:05, Laws of Guyana, the Environmental Protection (Amendment) Act, 2005, and the Environmental Protection (Authorisations) Regulations, 2000.

Kindly be advised that the Permit will not incur any fee change at this point in time.

Should you have any questions or require further information or clarifications, please contact **Ms. Tricia Braithwaite – Environmental Officer, Manufacturing and Industry Department**, by telephone at 225-0506 (Ext. 2365) or email – industry@epaguyana.org.

Yours sincerely,

Kemraj Parsram
Executive Director
Executive Director

Ganges St., Sophia, Georgetown, GUYANA.

Environmental Permit (Varied)

Issued under the Environmental Protection Act, Cap. 20:05, Laws of Guyana, the Environmental Protection (Amendment) Act, 2005, and the Environmental Protection (Authorisations) Regulations, 2000

Reference No.:	20150904 - GNICF
Fee:	Medium (C2) i.e., US\$ 800 per year
Fee Paid:	US \$ 4,000 for Five years (October 2020 – September 2025)
Addressee:	Guyana National Industrial Company Inc. 1 – 9 Lombard Street Charlestown Georgetown
Activity:	Operation of Mechanical Workshop with Supporting Fuel Storage Facility – Diesel Only
Varied Activity	Installation of a Fuel Storage Tank

Guyana National Industrial Company Inc., hereinafter referred to as the “Permit Holder,” is hereby authorised in accordance with the Environmental Protection Act, Cap. 20:05, the Environmental Protection (Amendment) Act, 2005, and the Environmental Protection (Authorisations) Regulations, 2000, to Operation of Mechanical Workshop with Supporting Fuel Storage Facility – Diesel Only at Lot 1-9 Lombard Street, Charlestown, Georgetown, hereinafter referred to as the “Project,” in a manner indicated in the Application for Variance of an Environmental Authorisation submitted on March 20, 2024, and subject to the terms and conditions set forth herein and in any existing or forthcoming regulations, guidelines, best practices, and standards relevant to this project.

This is a Variance of Operation Permit, Reference No. 20150904-GNICF, issued on October 16, 2020, and expiring on September 30, 2025.

The Permit Holder, His Servants, Agents, and/or Sub-contractors shall comply with the following Terms and Conditions:

1.0 CONSTRUCTION

- 1.1 Land clearing and disturbance shall be limited to areas where immediate work is taking place.
- 1.2 Construction works shall **not be executed between 18:00 hrs. to 06:00 hrs. on any day close to communal areas unless** approval is sought from the EPA.

This requirement does not apply for large concrete pours or asphalt laying and earth removal where work in the early morning and late evening is required.

- 1.3 Areas for construction material stockpiles and equipment shall be identified.
- 1.4 Stockpile areas shall be downwind to avoid materials being dispersed by wind to sensitive areas. Loading and offloading activities shall, as far as possible, also be confined to this location.
- 1.5 Temporary stockpiles shall not exceed **twenty-four (24) hours** before being removed or transferred to the designated stockpiling areas established by Condition 1.3.
- 1.6 Temporary stockpiles of construction materials, including excavated waste, shall be stored in a secured, designated area and protected from wind and water erosion.
- 1.7 Stockpiles shall not exceed the height of the parameter fence.
- 1.8 Stockpiles, including dusty materials transported to, from, and within the site, shall be enclosed or covered to reduce airborne emissions. Where this is not practical owing to frequent usage, employ wet suppression methods such as watering or erecting dust screens/fences to control emissions.
- 1.9 Install a silt fence **at least 3 meters** from the boundary of any canal, drain, or river to prevent any possible contamination from construction material. The height of the silt fence shall be **no less than 3 meters**; the distance between fence posts shall **not exceed 1.2 meters (4 ft.)**, and fence posts shall be installed at a depth of **at least 0.6 meters (24 inches)**.
- 1.10 Where feasible, pre-mixed, 'ready-mixed' concrete shall be used to reduce dust emissions caused by on-site preparation.
- 1.11 Measures shall be implemented for the removal of any contamination and or siltation of drains during construction.
- 1.12 All construction equipment and machinery shall be maintained in accordance with the manufacturer's specifications to avoid mechanical failures and abnormal noise pollution. Logs and records signed by the appropriate inspecting personnel shall be maintained and made available for inspection by the EPA upon request.
- 1.13 All cutting of wood and mixing of cement shall be done at least 15m from the perimeter drains to minimize pollution.

2.0 OPERATIONS

- 2.1 An application shall be made to the Agency to vary this Permit in instances where it becomes necessary to:
 - i. Change the construction, operation, structure, or layout of the facility and all associated buildings;

- ii. change equipment, machine, apparatus, mechanism, system, or technology serving the facility;
 - iii. change the position and design of any outlet at the point or points of discharge of effluents; or
 - iv. effect any other change outlined in Regulation 20(3) of the Environmental Protection (Authorisations) Regulations
- 2.2 All employees shall be trained on these SOPs outlined in **condition 2.3** above. Training records shall be maintained and made available for inspection by the EPA upon request.
- 2.3 All employees and third parties under the Project's direction shall be made aware of the conditions of the Environmental Authorisation.
- 2.4 Employees shall be equipped with Personal Protective Equipment relevant to the occupational tasks during operation.
- 2.5 The Permit Holder shall provide training on good environmental practices.
- 2.6 The Best Available Technology/ Technique (BAT) shall be employed to contain spills when delivery trucks are unloading fuel and containers or equipment are being filled.
- 2.7 Emergency spill clean-up kits shall be maintained at the project for response to spills. Kits must contain absorbent materials, drain seals, and other appropriate tools for clean-up. Kits must be readily available and clearly identified at the Project.
- 2.8 The Guyana Fire Service approval shall be obtained and maintained, and fire protection measures such as fire extinguishers and sand buckets shall be provided in accordance with this approval.
- 2.9 All firefighting equipment shall be maintained and serviced according to the Guyana Fire Service requirements.
- 2.10 Adhere to the requirements of the **Occupational Safety and Health Act, Cap. 99:01, Laws of Guyana.**

3.0 OPERATION OF A WORKSHOP

- 3.1 Welding, fabrication, and other maintenance activities shall at all times be conducted within the confines of the workshop and on an impervious base.
- 3.2 Inspection, maintenance, and repairs of all equipment used at the Project shall be conducted on an impervious base in accordance with the Manufacturer's Specification. Summarised records shall be maintained and made available for inspection by the EPA upon request.

- 3.3 The Best Available Technology (BAT) shall be implemented to remove vapors/fumes from the workshop during welding and fabrication work.
- 3.4 Welding gas cylinders shall be stored and managed according to the supplier's recommendations.
- 3.5 Engine oil, grease, and paint used at the workshop shall be stored within secondary containment (bundled area) to minimise the spread/ release of spillage from the storage area.
- 3.6 All chemicals used at the workshop shall be stored in accordance with the Safety Data Sheets (SDS). SDS shall be readily available and easily accessible at the project.
- 3.7 Flammable materials shall be stored away from ignition sources. **'No Smoking'** signs shall be posted where such materials are handled and stored.

4.0 FUEL STORAGE AND HANDLING

- 4.1 Adopt and comply with the National SOP "Guidance for the Design, Construction, Modification, and Maintenance of Petrol Filling Stations" and any forthcoming code of practice/guidelines on the operation of fuel storage.
- 4.2 Fuel shall always be stored above ground and away from ignition sources. **'No Smoking'** signs shall be posted where fuel is handled or stored.
- 4.3 Existing secondary containment around the fuel tanks shall be inspected monthly for cracks and breakage to ensure they are liquid-tight to withstand the hydrostatic pressure of any contained liquid when full. A summarized inspection report shall be kept and provided to the EPA upon request.
- 4.4 All secondary containment shall remain sealed, and all piping must enter or exit the containment over the wall. Secondary containment shall provide total containment, and no part of the tank infrastructure (e.g., dispenser, filling hoses, and valves) shall protrude outside the containment.
- 4.5 Effluent from the secondary containment shall pass through an oil water separator prior to discharge.
- 4.6 Fuel storage tanks shall be visually inspected to verify their integrity. Inspection reports shall be maintained and made available for inspection by EPA upon request.
- 4.7 Protection measures for fuel storage tanks, such as painting and coating, shall be maintained to minimize corrosion of fuel tanks.
- 4.8 Maintenance and/ or repair of fittings, pipes, and hoses shall be in accordance with the manufacturer's specifications. A summarized inspection report shall be maintained and made available for inspection by EPA upon request.
- 4.9 Overfill protection shall be installed and maintained on all fuel tanks. This may

include an automatic shut-off device or an audible or visible overflow alarm.

- 4.10 The safe fill level shall be identified on the gauge and set at 90% to prevent overfilling. In the event of overfilling, all discharges shall be released into the containment bund.
- 4.11 The Best Available Technology/ Technique (BAT) shall be employed to capture fuel lost during fuel unloading to storage tanks and equipment refueling.

4.0 WATER QUALITY

- 4.0 Adhere to the provisions of the **Environmental Protection (Water Quality) Regulation, 2000.**
- 4.1 All equipment refueling shall be conducted on an impervious base or the use of drip pans shall be implemented to prevent fuel contamination of soil/water.
- 4.2 The oil water separator(s) at the following final discharge points shall be maintained:
1. **Generator Tank**
 2. **Refueling Tank**
- 4.3 The project shall maintain the integrity of the existing waterways at all times. Discharges into the environment should be in accordance with the Guyana National Bureau of Standards (GNBS) *Interim Guidelines for Industrial Effluent Discharge into the Environment*. The following are the allowable limits for the general environment and should not be exceeded:

Parameter	Approved Limit	Unit
pH	5.0-9.0	
Temperature	< 40	°C
Total Suspended Solids (TSS)	<100	mg/L
Oil and Grease	< 10	mg/L
Total Petroleum Hydrocarbon (TPH)	<40	mg/L

Water Quality Monitoring shall be conducted **annually** at the discharge points, in accordance with the parameters listed above, by trained personnel utilizing calibrated equipment. Records shall be maintained and submitted to the EPA as a component of the **Annual Report**.

- 4.4 Fuel/lubricants, including waste oils, shall not be drained from equipment onto the ground or into waterways.

- 4.5 Interceptor drains shall be maintained on-site. These must be adequately sloped to collect storm flow.

5.0 AIR QUALITY

- 5.1 Adhere to the provisions of the **Environmental Protection (Air Quality) Regulations, 2000.**
- 5.2 Generators shall use retrofit emission controls to reduce particulate matter emissions to the atmosphere.
- 5.3 Generators shall be equipped with stacks that extend two (2) meters above the tallest building within a 500m radius of the development, to minimize adverse fumes/soot impacts to the contiguous areas.
- 5.4 Ambient air quality monitoring shall be conducted at the boundary of the property during normal operations to assess the levels of the following air pollutants in accordance with the World Health Organization (WHO) 2021 Air Quality Guidelines:

Air Pollutant	Averaging Time	Maximum Permissible Level
PM _{2.5}	24h	15 µg/m ³
PM ₁₀	24h	45 µg/m ³

Air quality monitoring shall be conducted **annually** in accordance with the parameters listed above by trained personnel utilizing calibrated equipment. Records of each monitoring exercise shall be maintained and results submitted to the Agency as a component of the Project's **Annual Report**.

- 5.5 Mechanical equipment shall be operated and maintained in accordance with the manufacturer's specifications.
- 5.6 In the event of equipment malfunction or **inefficiencies** which may result in visible emissions into the air or, in the event of the malfunction leads to abnormal emissions, the operator shall:
- Investigate and undertake remedial action **immediately**;
 - Adjust the process or activity to minimize those emissions; and
 - Record the events and actions taken. This shall be submitted in the annual report.

6.0 NOISE MANAGEMENT

- 6.1 Adhere to the provisions of the **Environmental Protection (Noise Management) Regulations, 2000.**
- 6.2 Noise emissions shall be monitored at the Project's boundary to determine compliance with **Guyana National Bureau of Standards (GNBS) Guidelines for Noise Emissions** into the Environment, not exceeding the **Commercial Limits** listed below:

Commercial Limits: 80 dB (Day-time (06:00 h -18:00 h))
65 dB (Night-time (18:00 h - 06:00 h))

Noise Quality monitoring shall be conducted **annually** in accordance with the parameters listed above by trained personnel utilizing calibrated equipment. Records of each monitoring exercise shall be maintained and results submitted to the Agency as a component of the Project's **Annual Report.**

- 6.3 All machines/equipment shall be serviced in accordance with the manufacturer's specifications to ensure efficiency and reduce the level of noise produced. A summarised maintenance report shall be maintained on-site and made available to the EPA upon request.
- 6.4 All significant noise-producing equipment, such as generators, shall be equipped with appropriate silencers or mufflers and/or are enclosed in suitable acoustic enclosures where necessary, to reduce noise levels impacting the surrounding environment to achieve compliance with Guyana National Bureau of Standards (GNBS) requirement.

7.0 HAZARDOUS WASTE (Waste Oil, Oily Rags, Etc.) MANAGEMENT

- 7.1 Adhere to the provisions of the **Environmental Protection (Hazardous Waste Management) Regulation 2000.**
- 7.2 Hazardous waste containers shall be labeled with the following:
- i. The words "**Hazardous Waste**"
 - ii. The type of waste
 - iii. Beginning accumulation date, i.e., the date when the container was first placed in the Hazardous Waste Storage Area. Should the hazardous waste container be reused, the date hazardous waste was first placed in the container shall be recorded on the container.
- 7.3 Waste oil containers shall be labelled with the following:
- i. The words "**Waste Oil or 'Used Oil'**"
 - ii. Beginning accumulation date

- 7.4 Hazardous waste shall be stored in a covered, bunded area. This area shall include the following:
- i. Signage- "**Hazardous Waste Storage Area**"
 - ii. Low traffic
 - iii. No floor drains
 - iv. The bunded area shall provide 110% containment of the largest volume stored therein.
- 7.5 Hazardous waste shall be treated and/or disposed of by an EPA-authorised Hazardous Waste Disposal Facility.
- 7.6 Each transport of hazardous waste shall generate a manifest. The manifest shall contain the following:
- a) The name and address of the waste generator;
 - b) The name and description of the waste and hazardous class;
 - c) The number and type of containers;
 - d) The quantity of waste being transported; and
 - e) The name and address of the facility designated to receive the waste
- 7.7 The Project shall retain a signed copy of the **Waste Manifest Form** submitted by the Hazardous Waste Transporter for a period of three years. The copies shall be maintained on-site, and an annual summary of these records shall be submitted to the EPA as a component of the **Annual Report**.

8.0 WASTE MANAGEMENT

- 8.1 In accordance with the **Environmental Protection (Litter Enforcement) Regulations, 2013**, promote good sanitation and solid waste disposal practices at the Funeral Parlour; covered garbage receptacles must be placed at strategic locations at the facility.
- 8.2 Burning of solid waste **is strictly prohibited**. All solid waste shall be disposed of by an EPA-Authorised Waste Disposal Company.
- 8.3 Good housekeeping, sanitary, and hygienic practices shall be maintained at all times. The facility's drains and surroundings shall be kept free of vegetation and litter.
- 8.4 Promote waste minimization and the reuse and/or recycling of waste and other materials where practical.
- 8.5 Waste collection areas shall be kept clean. Dry methods shall be used when cleaning around waste handling and disposal areas (e.g., sweeping, use of absorbents).

- 8.6 The Permit Holder shall maintain a septic tank system on site in accordance with the Guyana National Bureau of Standards (GNBS) *Code of Practice for the Design and Construction of Septic Tanks and Associated Secondary Treatment and Disposal Systems*:
- i) The septic tank shall not be located within 1.5 meters of a building or property boundary;
 - ii) septic tanks shall be installed with a sand and charcoal filter bed or other appropriate design for further treatment; and
 - iii) shall be accessible for cleaning and de-sludging.

- 8.7 Any modification to the Septic tank shall be in accordance with the Guyana National Bureau of Standards (GNBS) Code of Practice for the Design and Construction of Septic Tanks and Associated Secondary Treatment and Disposal Systems

9.0 COMPLIANCE MONITORING AND REPORTING

- 9.1 Notify the Environmental Protection Agency within **one (1) hour** of the discovery of the occurrence of environmental emergencies (e.g., oil spills, hazardous materials/wastes, and chemicals sudden onset disaster, natural technological or human-induced factors that cause or threaten to cause severe environmental damage as well as harm to human health or livelihood).
- 9.2 Monitor the implementation of the conditions of this Permit insofar as they involve adherence by your employees and all third parties under your direction.
- 9.3 Notify the Agency in writing of any change of name or ownership of the Permit Holder's facility within **thirty (30) days** after the change occurs.
- 9.4 Notify the Agency **within twenty-one (21) days** in the event of death, bankruptcy, liquidation, or receivership of the Permit Holder or if the Company becomes a party to an amalgamation.
- 9.5 Maintain and submit to the Agency records of the type, composition, and quantity of contaminant released (i.e., any solid, liquid, gas, odor, sound, vibration, radiation, heat, or combination of any of them).
- 9.6 Submit an **Annual Report** to the EPA on your compliance with this on or before **March 31, each year**.
- 9.7 Report to the Agency any non-compliance(s) with the Environmental Permit:
- i. Within **twenty-four (24) hours** of the time the Holder of the Environmental Authorisation becomes aware of the non-compliance outlining the anticipated manner in which human health or the environment may be impacted.
 - ii. Within **seventy-two (72) hours** of the time the Holder of the Environmental Permit becomes aware of the non-compliance, submit to the

Agency a written report containing a description of the non-compliance, its cause, the period of non-compliance including exact dates and time and the anticipated time it is expected to continue if the non-compliance(s) has not been corrected.

- 9.8 Comply with any lawful directions given by the EPA from time-to-time in furtherance of the implementation of any international or other obligation for the environmental protection of Guyana.
- 9.9 It is the responsibility of the Permit Holder to ensure the permitted activity and premises are secured and that all practicable steps necessary to prevent fires, explosions, leaks, or suspected leaks and spills at the permitted premises are taken.

10.0 INSTITUTIONAL AUTHORITY/ LIABILITIES

- 10.1 The Permit Holder shall be liable for any material environmental harm caused by polluting the environment, pursuant to s. 39 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana.
- 10.2 The Permit Holder shall be liable for any serious environmental harm caused by polluting the environment, pursuant to s. 39 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana.
- 10.3 The Permit Holder shall be liable for any activity that causes or is likely to cause pollution of the environment unless all reasonable and practicable measures are taken to prevent or minimize any resulting adverse effect, pursuant to s. 19 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana.
- 10.4 The Permit Holder shall be liable for discharging, causing or permitting the entry into the environment, of any contaminant in any amount, concentration or level in excess of that prescribed by the regulations or stipulated by this Environmental Permit, pursuant to s. 19 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana.
- 10.5 The Permit Holder shall be liable to compensate any person who suffers any loss or damage as a result of contravening conditions 10.3 and 10.4 of this Environmental Permit, pursuant to s. 19 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana.
- 10.6 The Permit Holder shall not be indemnified by the Agency for any activity that causes or is likely to cause pollution to the environment, resulting from adverse effects through the discharge, any contaminant in any amount, concentration, ultra-hazardous substances, chemicals or otherwise, and shall be rendered liable to prosecution and to penalties prescribed under the Environmental Protection Act and Regulations.
- 10.7 The Permit Holder shall be liable of any gross negligence or willful misconduct

Environmental Permit (Varied) Ref. No. 20150904-GNICEF

Issued under of the Environmental Protection Act, Cap 20:05, Laws of Guyana, the Environmental Protection (Amendment) Act, 2005, and the Environmental Protection (Authorisations) Regulations, 2000.

- caused by the Permit Holder, his Servants and/or Agents, to the environment, biodiversity, protected species and natural habitat with respect to any release, discharge, or spill, of contaminant fluids, oil or lubricants.
- 10.8 Should the Permit Holder contravene or be likely to contravene any condition of this Permit, the Agency (EPA) may serve on him an Enforcement Notice in accordance with Section 26 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana.
- 10.9 Where it appears to the Agency that the Permit Holder is engaged in any activity that may pose a serious threat to natural resources or the environment, or a risk of serious pollution of the environment or any damage to public health, the EPA may issue to the Permit Holder a Prohibition Notice, which may order him to immediately cease the offending activity, in accordance with Section 27 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana.
- 10.10 The EPA reserves the right to conduct regular inspections of the Permit Holder's construction activities as part of its monitoring and enforcement requirements under the Environmental Protection Act, Cap 20:05, and the Environmental Protection (Amendment) Act, 2005, and Environmental Protection (Authorisations) Regulations, 2000.
- 10.11 The Permit Holder, His Servants and/or Agents shall at all times, allow entry to the permitted facility to any Officer designated by the EPA for the purposes of conducting inspections or any other legitimate business of the Agency. Pursuant to Section 38 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana, it is an offence to assault, obstruct or hinder an authorised person in the execution of his/her duty under the said Act or its Regulations and the Permit Holder shall be liable to penalties prescribed under paragraph (c) of the Fifth Schedule for doing so.
- 10.12 The EPA has the right to modify, cancel or suspend this Permit for breach of any of the terms and conditions contained herein.
- 10.13 **This Environmental Permit (Varied) is not the final consent; all relevant Permissions should be obtained from other regulatory bodies for continued operation.**
- 10.14 This Environmental Permit (Varied) is effective for the period stipulated herein: **October 2020 to September 2025.**
- 10.15 This Environmental Permit (Varied) shall remain valid until **September 30, 2025**, unless otherwise suspended, cancelled, modified or varied, in accordance with the provisions of this Permit or the Environmental Protection Act, Cap. 20:05, Laws of Guyana, Environmental Protection (Amendment) Act, 2005, and the Environmental Protection (Authorisations) Regulations, 2000.
- 10.16 This Permit must be renewed by submitting a completed *Application Form for Renewal of Environmental Authorization* to the Agency at least six months before

Environmental Permit (Varied) Ref. No. 20150904-GNICF

Issued under of the Environmental Protection Act, Cap 20:05, Laws of Guyana, the Environmental Protection (Amendment) Act, 2005, and the Environmental Protection (Authorisations) Regulations, 2000.

this Permit expires, that is, no later than **March 01, 2025**.

- 10.17 Any late submission of renewal application after the specified date as stated above, the Agency may require the Permit Holder to pay, in addition to the renewal fee, a late penalty fee (accruing at the time such obligation was first owed for renewal) at a rate of **two thousand dollars (GY\$2000.00) per day for every business day late**, until such renewal application is submitted to the Agency, without prejudice to any other rights of the Permit Holder in connection therewith.
- 10.18 Failure to comply with the requirements of this Permit (Varied) or with applicable laws and regulations, whether existing or forthcoming, shall render the Permit Holder liable to prosecution and to penalties, inclusive of civil penalties, injunctive relief and imprisonment, as prescribed under the Environmental Protection Act, Cap. 20:05, Laws of Guyana, the Environmental Protection Regulations and other applicable Laws of Guyana.

Signed by  on behalf of the Environmental Protection Agency.
