Environmental Permit (Interim)

Issued under the Environmental Protection Act, Cap. 20:05, Laws of Guyana, the Environmental Protection (Amendment) Act, 2005, and the Environmental Protection (Authorisations) Regulations, 2000

Reference No.:	20250114-MSCC1
Fee:	Large (C1) i.e., US \$ 1500 Per Year
Fee Paid:	US\$ 1500 for One (1) Year (April 2025 to March 2026)
Addressee:	C1 Water Industries Guyana Inc. Parcel 711, Great Diamond, East Bank Demerara
Activity:	Interim Environmental Permit for the Blending, Storage and Supplying of Oil and Gas Chemicals

C1 Water Industries Guyana Inc. hereinafter referred to as the "Permit Holder", is hereby authorised in accordance with the Environmental Protection Act, Cap. 20:05, the Environmental Protection (Amendment) Act, 2005, and the Environmental Protection (Authorisations) Regulations, 2000, to Construct and Operate a Blending and Storage Facility for Oil and Gas Chemicals at Parcel 711, Great Diamond, East Bank Demerara hereinafter referred to as the "Project", in a manner indicated in the Application for Environmental Authorisation submitted on January 14, 2025, and subject to the terms and conditions set forth herein under the Environmental Protection Act, existing and/or forthcoming Regulations made under the said Act, and/or any applicable guidelines, best practices and standards relevant to this project.

The Permit Holder, His Servants, Agents and/or Sub-Contractors shall comply with the following Terms and Conditions for Operation:

1.0 GENERAL

- 1.1 This Interim Permit is issued pursuant to Regulation 18(3) of the Environmental Protection (Authorisations) Regulations 2000, for a period of one (1) year commencing December 2024 to January 2026.
- 1.2 The Permit Holder is required to submit to the Agency, the requisite approvals upon obtaining such approvals from the Central Housing and Planning Authority (CH&PA), the relevant Municipality, or any other authority with jurisdiction and oversight over the operations.
- 1.3 The Agency may cancel, suspend or modify this Permit, in accordance with Regulation 14 of the Environmental Protection (Authorisations)

Regulations, for any reason thereunder, or as included herein.

- 1.4 **Any modification, suspension or cancellation of the aforementioned approvals in Condition 1.2 relevant to the execution of the Project, may result in the modification, suspension or cancellation of this Interim Environmental Permit by the Agency. Any such modification, suspension and/or cancellation of any of these approvals shall be communicated in writing to the Agency within three (3) days of receipt by the Permit Holder.**
- 1.5 **Upon expiration of this Permit, or its cancellation by the Agency, activities may only commence or resume upon the issuance of a full, valid Environmental Permit by the Agency, subject to the procedures stipulated by Section 11 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana, for which the Agency provides no guarantees or assurances.**
- 1.6 **All activities outlined under this Interim Environmental Permit should be conducted by qualified experts utilizing calibrated equipment where applicable.**
- 1.7 **Failure to submit the data, and such further environmental information referred to in this Interim Permit, or required by the EPA after its issuance, within the timelines stipulated herein or by the EPA, may result in the modification, suspension or cancellation of this Interim Environmental Permit by the Agency.**
- 1.8 **The Permit Holder accepts, concedes, and agrees unequivocally that under no circumstances whatsoever shall the Agency assume any liability for expenses incurred, loss of revenues, delays, or any other losses or damages whatsoever, related to the activities undertaken by the Permit Holder hereunder, and that the Agency provides no guarantees or assurances that a full valid Environmental Permit will be issued upon the expiry or cancellation of this Interim Permit. The Permit Holder agrees to indemnify the Agency against any and all liabilities, including but not limited to judgements, costs, and legal fees, and proceeds with this Project on this Interim Permit in full acknowledgment and agreement with the foregoing.**

2.0 ENVIRONMENTAL RISK ASSESSMENT AND MANAGEMENT PLAN

The Permit Holder shall provide the following **within six (6) months** of the issuance of this Interim Environmental Permit:

- 2.1 **A comprehensive Environmental Risk Assessment and Management Plan for the Project, including but not limited to**
 - i. **Description of the chemical storage facility**
 - ii. **Description of the chemical blending process**
 - iii. **A register of the quantities of hazardous materials stored at the**

- iv. Project
Risks associated with the storage, blending and handling of Oil and Gas chemicals at the facility.
- v. Mitigation measures of associated risks

2.2 Further, the ERAMP should be conducted by competent individuals who must satisfy the following criteria:

- i. Must have a second degree (MSc.) in an environmental field.
- ii. Must have at least three years of experience in conducting Environmental Risk Assessments and Preparation of Management Plans, especially in chemical analysis and impact/risk assessment.

In this regard, the individuals/firms proposed to conduct the RA must be submitted to the EPA to assess their competency.

2.3 Baseline data to determine the ambient water quality within the project area of influence.

2.4 A baseline data study concerning specific emissions by the project including but not limited to criteria pollutants such as VOCs, NOx, SOx, Carbon Monoxide, and carbon dioxide equivalent. Emissions Standards should be in accordance with the WHO Air Quality Guidelines 2005.

2.5 Submit evidence of stakeholder consultation with residents of surrounding communities.

2.6 3.0 The Permit Holder shall submit within six (6) Months after issuance of this Interim Environmental Permit, a detailed site map of the proposed site showing all land zones as they are currently used including access roads, land ownership, nearby water source, closest residence, and buffer zones. The maps shall continue a north indicator, a scale, and location marking (UTM- Universal Transverse Mercator Coordinates) Provisional South American. This must include the following:

- Boundaries of the site;
- Buffer zones;
- The access road to the Proposed Site;
- Three warehouses (Chemical Warehouse- A, B, C(liquids, solid and storage area)
- Drainage Systems (Internal and External);
- Power Supply.

2.7 The Permit Holder shall submit within six (6) months a Chemical Spill Plan (CSP) for the Storage of offshore production chemicals and cement to the Agency for approval, which shall include but not be limited to the following areas: -

2.8 Safety codes in the chemical storage area;

- i. Labeling;

- ii. Inspection;
- iii. Inventory
- iv. Chemical Spill Kit

2.9 4.2 The CSP shall clearly outline and identify Mechanisms, protocols and implementation schedules, responsibilities, and associated costs. The safety policy for this refinery must be clearly articulated by the company

2.10 An Environmental Risk Assessment and Management Plan (ERAMP) for the Project shall be submitted by October 30, 2025. The ERAMP shall address mitigation measures for potential environmental impacts and have an Air and Noise monitoring plan, Water Quality Monitoring Plan, and Emergency Spill Response Plan (ESRP), which shall include, but not be limited to local emergency response authorities, notification of national and local authorities, coordination of clean-up activities, and assessment of health hazards to human and the environment.

3.0 OPERATION

3.1 Adhere to the requirements of the **Occupational Safety and Health Act, Cap. 99:01, Laws of Guyana.**

3.2 Make an application to the Agency to vary this Permit in instances where it becomes necessary to:

- i. change the construction, operation, structure, or layout of the facility and all associated buildings;
- ii. change equipment, machine, apparatus, mechanism, system or technology serving the facility;
- iii. change the position and design of any outlet at the point or points of discharge of effluents; or
- iv. effect any other change outlined in 20(3) of the Environmental Protection (Authorisations) Regulations.

3.3 Adhere to the **Pesticides and Toxic Chemicals Control Act 2000.**

3.4 Emergency spill clean-up kits shall be maintained at the Project for response to spills. Kits must contain absorbent materials, drain seals and other appropriate tools for clean-up. Kits must be readily available and clearly identified at the Project.

3.5 Emergency exits at the warehouse **shall not** be obstructed by chemical storage containers.

3.6 A register of the quantities of Oil & Gas Chemicals stored at the Project shall be established and maintained. A summary of the registered information shall be maintained and submitted to the EPA upon request.

3.7 All employees involved in the management of Oil & Gas Chemicals shall be trained on

Hazardous Chemical Communication and Emergency Preparedness Response. Training report shall be maintained on site and made available to the EPA upon request.

3.8 Fire prevention and control equipment shall be maintained in accordance with Guyana Fire Service Approval.

3.9 Make all employees, and third parties under your direction, aware of the conditions of the Environmental Authorisation and provide training on good environmental practices. Annual training schedule shall be kept and submitted to the Agency upon request.

4.0 STORAGE OF HAZARDOUS MATERIALS

4.1 Hazardous Material Storage Areas shall be clearly labeled: ***"Danger, Chemical Storage Area- Authorized Personnel Only"*** where applicable, as a spill control measure.

4.2 Flammable materials shall be stored away from ignition sources. 'No Smoking' signs shall be posted where these materials are handled and stored.

4.3 Secondary containment (bund area) shall be maintained around storage areas of all liquid chemicals. The secondary containment shall have:

- i. A volume equivalent to the volume of liquid stored within the largest storage container and;
- ii. Walls constructed of impermeable materials.

4.4 Hazardous materials shall be stored in accordance with the manufacturer's directions or Safety Data Sheet (SDS) instructions.

4.5 Safety Data Sheets for all hazardous materials shall be readily available and easily accessible at all times at the Project.

4.6 Adhere to the labeling of all hazardous materials with regards to incompatibility with other materials/chemicals stored within the Facility

4.7 Hazardous materials **shall not** be stored on damaged, or inadequately secured racking or on damaged pallets to minimise the risk of spills.

4.8 Hazardous chemical storage containers shall be inspected for signs of leakage or corrosion and damaged containers must be replaced immediately. Inspection reports shall be maintained on site and made available to the EPA upon request.

4.9 Liquid hazardous materials shall be stored within secondary containment (bund area) to minimise the spread/ release of spillage from the storage area. Secondary containment shall possess the following characteristics:

- i. Capacity of the secondary containment facility shall be equal to 100% of the greatest volume of liquid stored within the largest storage container;

- ii. Walls of the secondary containment facility shall be constructed of earth, steel, concrete or solid masonry. Cracks and seams shall be sealed to prevent leakage;
- iii. Liners/flooring of secondary containment facility shall be constructed of asphalt or concrete and designed to withstand foreseeable loading conditions.

4.10 Buildings that store hazardous materials must be equipped with a sprinkler system in case of a fire

4.11 Hazardous materials shall be stored away from non-hazardous chemicals.

4.12 Hazardous materials shall be stored according to the following compatibility:

- i. Acids separate from Caustics
- ii. Acids separate from Bases
- iii. Acids separate from Flammables
- iv. Bases separate from Flammables,
- v. Oxidizers separate from Compressed Flammable Gases
- vi. Corrosives separate from Flammables
- vii. Oxides separate from all other chemicals
- viii. Organic reactives separate from inorganic reactives (metals)
- ix. Any other stipulated standards for storage or segregation of chemicals.

4.13 Hazardous material containers shall be clearly labelled in accordance with the Globally Harmonised System of Classification and Labelling. The following must be evident:

- i. Signal Word
- ii. GHS Symbols- (Hazard Pictograms)
- iii. Manufacturer Information
- iv. Precautionary Statements/ First Aid
- v. Hazard Statements
- vi. Product Name or Identifiers

4.14 Hazardous materials stored in ton bags and totes shall:

- i. Be protected from UV rays;
- ii. Be covered to prevent exposure to dirt, dust, and moisture; and
- iii. Not hang over the side of pallets used for stacking.

4.15 Hazardous materials stored within drums shall:

- i. Be placed within banded storage to ensure any leaks or spills are immediately contained;
- ii. Be clearly marked with their contents, and any appropriate warning symbols;
- iii. Have scheduled inspection to detect rust, leaks or other damage; and

N.P.

iv. Remain covered to protect the integrity of your chemicals.

- 4.16 Hazardous materials stored within cans shall be tightly sealed and kept off the floor on banded pallets.
- 4.17 Material storage containers shall be inspected weekly for signs of leakage or corrosion and damaged containers **must be replaced immediately**. Inspection reports must be maintained and signed by the appropriately qualified inspecting officer and his/her supervisor.
- 4.18 Material Container Inspection reports shall be summarised and submitted to the Agency as part of the **Annual Report**.
- 4.19 Hazardous materials **shall not** be stored on damaged, or inadequately secured racking or on damaged pallets.
- 4.20 Hazardous materials **shall not** be stored in passageways including truck routes, other vehicle routes and pedestrian walkways on site.
- 4.21 All exit routes and emergency doors **shall** be free from obstruction at **all times**.
- 4.22 A register of the quantities of hazardous materials stored at the Project shall be established and maintained. A summary of the registered information shall be submitted to the Agency as part of the **Annual Report**.

5.0 TRANSFER OF HAZARDOUS MATERIALS

- 5.1 All electrical equipment and containers containing flammable materials utilized during the transfer of hazardous materials process, shall be grounded and banded.
- 5.2 A trained operator or carrier shall at all times supervise, monitor and control the transfer of hazardous liquid materials to prevent overflow and spill during the entire period of transfer.
- 5.3 Secondary containment, drip trays or other overflow and drip containment measures shall be installed and maintained at connection points or other possible overflow points.
- 5.4 Standard Operating Procedures (SOPs) for safe transfer operations (from one container to the next), maintenance of containers and filling of storage containers shall be established and maintained. Copies of these SOPs shall be submitted to the Agency by **September 30, 2021**.
- 5.5 All employees shall be trained on these SOPs outlined in **condition 3.4**. An Annual training schedule shall be submitted to the Agency as a component of the **Annual Report**.

- 5.6 Operation of the chemical transfer pump shall be conducted in accordance to the manufacturer's requirements. Manufacturer's requirements shall be submitted to the EPA as a component of the required **Annual Report**.
- 5.7 Sumps shall be maintained at the hazardous chemical transfer area to collect and trap all effluent. Effluent from the sumps shall be pumped into metal containers.
- 5.8 The facility floor shall be elevated at a sloped angle, directing all effluent toward the sumps.
- 5.9 Best Available Technology shall be utilised to ensure that the sumps do not overflow
- 5.10 Any hazardous chemical spills occurring during handling and loading of hazardous materials, **shall be** immediately cleaned and disposed as guided by the respective Safety Data Sheet, at an EPA authorised hazardous waste treatment facility.

6.0 WATER QUALITY

- 6.1 Adhere with the provisions of the **Environmental Protection (Water Quality) Regulations, 2000**.
- 6.2 Direct discharge of untreated wastewater from the Project into the surrounding environment is **strictly prohibited**.
- 6.3 Chemical spills occurring during handling and loading of Oil & Gas Chemicals, **shall be** immediately cleaned as guided by the respective Safety Data Sheet and disposed at an EPA authorised disposal facility.
- 6.4 In the event of a spill, all wastewater shall be directed into the concrete containment drain which surrounds the parameters of the warehouse. The contaminated wastewater shall be collected, treated and disposed of by an EPA authorized hazardous waste treatment facility.
- 6.5 The containment drain shall be covered to prevent comingling of wastewater and storm water.
- 6.6 Flooring and drains shall be maintained with protective coatings to prevent seepage, damage or deterioration resulting from contact with spilt chemicals.
- 6.7 Adopt best-practice methods for plant cleaning using approved chemicals and/or detergents with minimal environmental impact.

7.0 AIR QUALITY

- 7.1 Adhere to the provisions of the **Environmental Protection (Air Quality)**

Regulations, 2000.

- 7.3 Volatile Organic Compounds monitoring shall be tested and compared with results from within the facility against the results to the outside at the extractor fan and at the boundary to determine dispersal concentration and distance, in accordance with the Australian EPA Air Quality Policy 2016:

List of Ingredients	Averaging Time	Maximum Concentration Level (ppm)	Frequency
Ethylene Glycol	3min	2.2 mg/m ³	Annual
Xylene	3min	2.7 ppm	Annual
Toluene	3min	3.2 ppm	Annual
Acetone	3min	16.7 ppm	Annual
Methyl Ethyl Ketone	3min	4.9 ppm	Annual
Propylene Glycol	3min	3.3 ppm	Annual
Formaldehyde	3min	0.033 ppm	Annual
Styrene	3min	1.64 ppm	Annual

As a component of the ERAMP, monitoring of the parameters above shall be conducted and the results analysed at a certified laboratory or by trained personnel using calibrated equipment.

- 7.4 Extractor fans consisting of charcoal filters shall be maintained in the Paint and Solvent storage areas and the Paint-Blending area.
- 7.5 Hazardous chemical blending areas shall maintain ventilation in accordance with one of the following to minimize the accumulation of noxious fumes:
- i. Gravity ventilation to the outside with a capacity of one cubic foot per minute per square foot or floor space; or
 - ii. Mechanical ventilation with on/ off switches at points of ingress that are capable of exhausting to the outside.

8.0 NOISE MANAGEMENT

- 8.1 Adhere to the provisions of the **Environmental Protection (Noise Management) Regulations, 2000.**
- 8.2 Equip all significant noise-producing equipment, such as generators, with silencers or mufflers and/or enclose in suitable acoustic enclosures where necessary, to reduce noise levels impacting the surrounding environment and to achieve compliance with GNBS requirement.
- 8.3 All generators and machines/equipment shall be serviced in accordance to manufacturer's specification to ensure efficiency and reduce the level of noise produced. A summarised maintenance report shall be submitted to the EPA as a component of the

Annual Report.

- 8.4 Noise emissions shall be monitored at the Project's boundary to determine compliance with Guyana National Bureau of Standards (GNBS) Guidelines for Noise Emissions into the Environment, not exceeding the industrial limits listed below:

Industrial Limits: **100 dB** (Day-time (06:00 h -18:00 h))
 80dB (Night- time (18:00 h - 06:00 h))

- 8.5 The Permit Holder shall determine a noise quality monitoring plan and submit this plan along with noise quality test results to the Agency as part of the Annual Report. Monitoring shall be conducted by trained personnel using calibrated Type 2 Sound Level Meters.
- 8.6 Idling of equipment or vehicles shall be limited, as far as practical and all equipment or vehicles shall be switched off when not in use.
- 8.7 Machines/ equipment capable of causing noise shall be serviced in accordance to the manufacturer's specification to ensure efficiency and reduce the level of noise produced. A summarised maintenance report shall be maintained on-site and made available for inspection by the EPA upon request.

9.0 WASTE MANAGEMENT

- 9.1 In accordance with the **Environmental Protection (Litter Enforcement) Regulations, 2013**, promote good sanitation and solid waste disposal practices on site. Covered garbage receptacles must be placed upon impervious base at strategic locations, both within and outside the facility.
- 9.2 Burning solid waste is **strictly prohibited**. All solid waste shall be disposed by an EPA Authorised Waste Disposal Company.
- 9.3 Good house-keeping, sanitary, and hygienic practices shall be maintained at all times.
- 9.4 Waste collection areas shall be kept clean. Dry methods shall be used when cleaning around waste handling and disposal areas (e.g. sweeping, use of absorbents).

10.0 COMPLIANCE MONITORING AND REPORTING

- 10.1 Notify the Environmental Protection Agency **within one (1) hour** of the occurrence of any environmental emergencies (e.g., oil spills, biohazardous materials/wastes spill, sudden onset disaster, natural, technological or human-induced factors that cause or threaten to cause severe environmental damage as well as harm to human health or livelihood).
- 10.2 Monitor the implementation of the conditions of this Permit, insofar as they involve adherence by your employees and all third parties under your direction.

- 10.3 Notify the Agency in writing of any change of name or ownership of the Permit Holder's facility within **thirty (30) days** after the change occurs.
- 10.4 Notify the Agency **within twenty-one (21) days** in event of death, bankruptcy, liquidation or receivership of the Permit Holder or if the Company becomes a party to an amalgamation.
- 10.5 Maintain and submit to the Agency records of the type, composition and quantity of contaminant released (i.e., any solid, liquid, gas, odour, sound, vibration, radiation, heat or combination of any of them).
- 10.6 Submit an **Annual Report** to the EPA on your compliance with this Permit on or before **March 31, each year**.
- 10.7 Report to the Agency any non-compliance(s) with the Environmental Permit(Interim):
- i. Within **twenty-four (24) hours** of the time the Holder of the Environmental Permit becomes aware of the non-compliance outlining the anticipated manner in which human health or the environment may be impacted.
 - ii. Within **seventy-two (72) hours** of the time the Holder of the Environmental Permit becomes aware of the non-compliance, submit to the Agency a written report containing a description of the non-compliance, its cause, the period of non-compliance including exact dates and time and the anticipated time it is expected to continue if the non-compliance(s) has not been corrected.
- 10.8 Comply with any lawful directions given by the EPA from time-to-time in furtherance of the implementation of any international or other obligation for the environmental protection of Guyana.

It is the responsibility of the Permit Holder to ensure the permitted activity and premises are secured and that all practicable steps necessary to prevent fires, explosions, leaks or suspected leaks and spills at the permitted premises are taken.

11.0 INSTITUTIONAL AUTHORITY/ LIABILITIES.

- 11.1 The Permit Holder shall be liable for any material environmental harm caused by polluting the environment, pursuant to s. 39 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana.
- 11.2 The Permit Holder shall be liable for any serious environmental harm caused by polluting the environment, pursuant to s. 39 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana.
- 11.3 The Permit Holder shall be liable for any activity that causes or is likely to cause pollution of the environment unless all reasonable and practicable measures are taken to prevent

or minimize any resulting adverse effect, pursuant to s. 19 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana.

- 11.4 The Permit Holder shall be liable for discharging, causing or permitting the entry into the environment, of any contaminant in any amount, concentration or level excess of that prescribed by the regulations or stipulated by this Environmental Permit pursuant to s. 19 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana.
- 11.5 The Permit Holder shall be liable to compensate any person who suffers any loss or damage as a result of contravening conditions 11.3 and 11.4 of this Environmental Permit, pursuant to s. 19 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana.
- 11.6 The Permit Holder shall not be indemnified by the Agency for any activity that causes or is likely to cause pollution to the environment, resulting from adverse effects through the discharge, any contaminant in any amount, concentration, ultra-hazardous substances, chemicals or otherwise, and shall be rendered liable to prosecution and to penalties prescribed under the Environmental Protection Act and Regulations.
- 11.7 The Permit Holder shall be liable of any gross negligence or wilful misconduct caused by the Permit Holder, his Servants and/or Agents, to the environment, biodiversity, protected species and natural habitat with respect to any release, discharge, or spill, of contaminant fluids, oil or lubricants.
- 11.8 Should the Permit Holder contravene or be likely to contravene any condition of this Permit, the Agency (EPA) may serve on him an Enforcement Notice in accordance with Section 26 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana.
- 11.9 Where it appears to the Agency that the Permit Holder is engaged in any activity that may pose a serious threat to natural resources or the environment, or a risk of serious pollution of the environment or any damage to public health, the EPA may issue to the Permit Holder a Prohibition Notice, which may order him to immediately cease the offending activity, in accordance with Section 27 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana.
- 11.10 The EPA reserves the right to conduct regular inspections of the Permit Holder's activities as part of its monitoring and enforcement requirements under the Environmental Protection Act, Cap 20:05, the Environmental Protection (Amendment) Act, 2005, and Environmental Protection (Authorisations) Regulations, 2000.
- 11.11 The Permit Holder, His Servants, and/or Agents shall at all times, allow entry to the permitted facility to any Officer designated by the EPA for the purposes of conducting inspections or any other legitimate business of the Agency. Pursuant to Section 38 of the Environmental Protection Act, Cap. 20:05, Laws of Guyana, it is an offence to assault, obstruct or hinder an authorised person in the execution of his/her duty under the said Act or its Regulations and the Permit Holder shall be liable to penalties prescribed under paragraph (c) of the Fifth Schedule for doing so.

Environmental Permit (Interim)-Ref. 20250114-MSCC1
(Issued under the Environmental Protection Act, Cap. 20:05, Environmental Protection (Amendment) Act, 2005, and the Environmental Protection (Authorisations) Regulations, 2000)

- 11.12 The EPA has the right to modify, cancel or suspend this Permit for breach of any of the terms and conditions contained herein.
- 11.13 **This Interim Permit is not the final consent; all relevant Permissions should be obtained from other regulatory bodies for continued operation.**
- 11.14 The Environmental is effective for the period stipulated herein from **April 2025 to March 2026.**
- 11.15 This Interim Permit shall remain valid until **March 30, 2026**, unless otherwise suspended, canceled, modified, or varied in accordance with the provisions of this Permit or the Environmental Protection Act, Cap. 20:05, the Environmental Protection (Amendment) Act, 2005, and the Environmental Protection (Authorisations) Regulations, 2000.
- 11.16 Failure to comply with the requirements of this Permit or with applicable laws and regulations, whether existing or forthcoming, shall render the Permit Holder liable to prosecution and to penalties, inclusive of civil penalties, injunctive relief, and imprisonment, as prescribed under the Environmental Protection Act, Cap. 20:05, Laws of Guyana, the Environmental Protection Regulations and other applicable laws of Guyana.

Signed by  on behalf of the Environmental Protection Agency.
Kemraj Parsram
Executive Director

Date 24.11.2025

I hereby accept the above terms and conditions upon which this Interim Permit is granted and agree to abide by the Environmental Protection Act, Cap. 20:05, the Environmental Protection (Amendment) Act, 2005, and the Environmental Protection (Authorisations) Regulations, 2000, and any forthcoming regulations, guidelines, best practices and standards made under this Act.
