

Name of project: M&C logging investment

Name of developer: Mohan Dookram & Carol Defrietas

Contact details: Mohan Dookram: 5926010107

Carol Defrietas :5926841954

Date prepared: September 05,2024.

This project is that of a portable sawmill known as M&C logging investment. It is located in 47 miles Mabura at concession DEM 18/11. This operation has not yet begun and is expected to begin in the new year 2025. The operation will be managed by Mr. Mohan dookram and Ms. carol defrietas daily. The establishment would be operational from 08:00am to 04:30pm from Monday to Saturday (half day). It would be staffed with approximately twelve full-time employees. Four fire extinguishers and five sand buckets will all be placed at strategic locations on work sites in cases of emergency, there will also be a first aid kit on site. The surrounding area is cleared of bushes to accommodate workspace and accommodation of workers.

Site description

Project design

Raw material for this project will be gather from within the concession that is trees that fell will be used to make the structure of the operation, roofing will be taken in the area. For water distribution there will be large tanks filled with water, when need be, from nearby creeks to supply water. Electricity will be accessed through generation and solar powered equipment.

Waste management from operation will be handled through proper disposal or for land filling purposes.

Project size

The project current projection is that of a small-scale operation with the expectation to expand within the years. Investment including equipment is estimated to be 5 million dollars with about twelve employees finishing tasks. An estimated of 5000 bm per day is expected.

The duration of the project is about 6 months to be ready.

Since we have no close neighbors there is not much in terms of the effects of waste, but these will still be handled in keeping with the environmental laws.
