

Environmental Protection Agency

Notice to the Public

Pursuant to Section 11(2) of the Environmental Protection Act, Cap. 20:05, the Environmental Protection Agency (EPA) screened the application for the grant of an environmental permit for the following proposed project:

Tarran Trading Enterprise – Operation of a Lubricant and Grease Storage Facility at Lot 1 & 2 Plantation Drill, Mahaicony, East Coast Demerara.

The EPA has determined that this project will not significantly affect the environment, and is therefore exempt from the requirement to conduct an Environmental Impact Assessment (EIA). The reasons for its decision include:

- 1) The potential impacts of the project on the physical, biological, and socioeconomic environment will not be significant, given that the operation of the storage facility will be done in an enclosed and controlled environment.
- 2) The project is not located within an environmentally sensitive area i.e., it is not located in an area having special environmental attributes that require special care or rare ecosystems or habitats with species at risk.
- 3) The application and project summary submitted outlined adequate mitigation measures for air & noise emissions from the project.

Please be advised that this decision is in no way an indication that this project is approved.

The reasons for our decision are available at the following links on our website:

Project Summary Tab

Any person who may be affected by the proposed project may lodge an appeal against the Agency's decision (EIA not required) within thirty (30) days of the publication of this Notice. Appeals against the EPA's decision should be addressed to:

The Chairman
The Environmental Assessment Board
