

## **Environmental Protection Agency**

### **Notice to the Public**

Pursuant to Section 11(2) of the Environmental Protection Act, Cap. 20:05, Laws of Guyana, the Environmental Protection Agency (EPA) has screened the application for the grant of an environmental permit for the following proposed project:

#### **Operation of Wayne's World Apartment located at Lot 717, South Amelia's Ward, Mc Kenzie, Linden, Region 10.**

The EPA has determined that this project will not significantly affect the environment, and is therefore exempt from the requirement to conduct an Environmental Impact Assessment (EIA). The reasons for its decision include:

1. Air quality will be minor and short term due to the use of a standby generator. The emissions are not expected to exceed WHO standards.
2. Noise impacts from the generator will be moderate due to the implementation of sound proofing measures. Once mitigated, it is not expected to exceed 90 decibels and will be short-term and localized.
3. Hazardous waste generation will not be significant and will not pose any risk to human health and the environment. Authorized sanitation waste disposal services will manage and dispose of non-hazardous waste during the operation of the facility in accordance with the Hazardous Waste Management Regulations 2000.
4. No process water/effluent will be generated. Treatment systems for wastewater from toilet facilities will be provided such as draining into a soak-away system. Water quality will not be impacted since there will be no direct discharge into waterways.

Please be advised that this decision is in no way an indication that this project is approved.

The reasons for our decision are available at the following links on our website:

#### **Project Summary Tab**
