

## **Environmental Protection Agency**

### **Notice to the Public**

Pursuant to Section 11(2) of the Environmental Protection Act, Cap. 20:05, Laws of Guyana, the Environmental Protection Agency (EPA) has screened the applications for the grant of an environmental permit for the following proposed projects:

- **Ruel Wilson - Wilson Timber Products Charcoals, Transportation & Construction - Kiln Charcoal Production at DEM 28/24, Right Bank Warida Creek, Western Side Soesdyke Linden Highway.**

The EPA has determined that this project will not significantly affect the environment, and is therefore exempt from the requirement to conduct an Environmental Impact Assessment (EIA). The reasons for EPA's decision include:

1. Air pollutants, including volatile organic compounds (VOCs), carbon monoxide and particulates which may be released in the charcoal production process would be reduced by packing wood in the charcoal pit to economise on space but without overloading it.
2. Waste such as ash and charcoal fines generated during charcoal production will be managed and used for soil amendment as a source of potassium and calcium.

Please be advised that this decision is in no way an indication that this project is approved.

The reasons for our decision are available at the following links on our website:

### **Project Summary Tab**

XX

Any person who may be affected by the proposed project may lodge an appeal against the Agency's decision (EIA not required) within thirty (30) days of the publication of this Notice. *Appeals against the EPA's decision should be addressed to:*

The Chairman  
The Environmental Assessment Board
