1872

OPERATION

- Only buying and storing of lumber are being done at my facility.
- No processing of lumber is being done on site to cause any air / dust pollution.
- Lumbers are bought then checked off, stored and bundle packed for later transporting to main business location.
- Protective gears are always available for all contract workers off-loading and loading materials.
- We always maintained free traffic flow on the main public road.

NOISE MANAGEMENT

- No processing of lumber is being done on my business premises to cause any noise pollution around the environment.
