

Environmental Protection Agency

Notice to the Public

Pursuant to Section 11(2) of the Environmental Protection Act, Cap. 20:05, Laws of Guyana, the Environmental Protection Agency (EPA) has screened the application for the grant of an environmental permit for the following proposed project:

1. Construction and Operation of Tifomelo Hotel and Apartments Facility at Sublots A & B being part of Lot D North of Public Road Vreed-En-Hoop, West Coast Demerara

The EPA has determined that this project will not significantly affect the environment, and is therefore exempt from the requirement to conduct an Environmental Impact Assessment (EIA). The reasons for its decision include:

1. Air quality will not be significantly affected since particulate matter emissions are primarily from transportation vehicles, and machinery during the construction phase. Impacts are primarily short-term, localized, and mitigable. Dust control measures such as dampening the work area, covering loose soil (small particles), and implementing water spraying systems to suppress dust emissions will be employed. The emissions are not expected to exceed WHO standards.
2. Noise and vibration will be expected primarily during the construction phase of the Hotel from vehicles, equipment and machinery usage. These are not expected to exceed 90 decibels and are short-term, localized and mitigable.
3. Hazardous waste generation will not be significant and, will not pose any risk to human health and the environment. Authorized sanitation waste disposal services will manage and dispose of non-hazardous waste during the construction and operation of the hotel in accordance with the Hazardous Waste Management Regulations 2000.
4. No process water/effluent will be generated. A septic tank will be constructed on site. Impact to water quality will be short term, mitigable and localized.
5. The proposed project is not in the vicinity of any sensitive ecosystem and or protected areas and the nature of the activity will not have significant impacts on the ecosystem.

Please be advised that this decision is in no way an indication that this project is approved.
